# SMOKE DETECTOR COVER

Security design not only provides protection for smoke detectors in correctional institutions, but also benefits any public application.

FEATURES

- 14 Gauge Steel
- Standard Powder Coat Finish – Silver
- Independent Laboratory Tested with UL Listed Smoke Detectors
- Security Designed and Tested in Correctional Facilities. Call for References
- Mounting Fasteners (not included)
- Designed with input from Correctional Mental Health Care Professionals to reduce liability and the possibility of inmate suicides
- The Patent Pending design provides a series of off-set perforations specifically designed in a manner that makes it extremely difficult to thread any material through that could serve as a means of tying off

Patent Pending

OPTIONAL FEATURES

- Standard Powder Coat Colors
- Stainless Steel Manufactured
- Mounting Fasteners

Made in the U.S.A.
